

Table of Contents

	<u>Page</u>
EXECUTIVE SUMMARY.....	E-1
CHAPTER 1 – INTRODUCTION	1-1
Service Area and Collection System Relationships.....	1-1
CHAPTER 2 – FLOW PROJECTIONS.....	2-1
Potential for I/I Reduction.....	2-1
CHAPTER 3 – EXISTING KIRKLAND PUMP STATION	3-1
Influent Sewer.....	3-1
Kirkland Pump Station.....	3-2
Raw Sewage Pumping System.....	3-2
Flow Isolation and Bypassing Capabilities.....	3-7
Control System.....	3-7
Air System.....	3-8
Standby Power and Electrical System.....	3-8
Water System.....	3-9
Drainage System.....	3-9
HVAC System.....	3-10
Equipment Accessibility and Maintenance Considerations	3-10
Personnel Egress, Safety, and Code Issues.....	3-11
Kirkland Force Main.....	3-12
Hydraulic Transients.....	3-14
Pump Station Problems Summary.....	3-15
CHAPTER 4 – ALTERNATIVE EVALUATION	4-1
Initial Upgrade	4-1
Influent Sewer.....	4-2
Wetwell Grating.....	4-3
Wetwell Float Switches	4-4
Flowmeter	4-4
Electrical Equipment	4-4
HVAC System.....	4-4
Backflow Preventer Modifications	4-5
Seal Water System.....	4-5
Underground Diesel Storage Tank	4-5
Noise Attenuation.....	4-6
Aesthetic Improvements	4-6

Upgrade for Increased Flows	4-6
Parallel and Replacement Force Mains	4-7
Pumps, Discharge Piping, and Force Main Header.....	4-8
Wetwell Modifications	4-8
Capital Costs	4-9

CHAPTER 5 – CONCLUSIONS AND RECOMMENDATIONS.....5-1

Appendix A – Cost Estimates

List of Figures

<u>Figure</u>		<u>Page</u>
1-1	Pump Station Site Plan.....	1-2
2-1	Kirkland Projected Flows vs. Existing Pump Station Capacity.....	2-3
3-1	Pump Station Section.....	3-3
3-2	Kirkland Pump Station Existing Raw Sewage Pump Curves.....	3-6
3-3	Kirkland Force main Profile	3-13

List of Tables

<u>Table</u>		<u>Page</u>
1-1	Construction Information.....	1-1
2-1	Flow Projections	2-1
2-2	Flow Projections with I/I Reduction.....	2-2
3-1	Influent Sewer Hydraulics	3-1
3-2	Horizontal Velocities in the Wetwell.....	3-4
3-3	Pump Suction Velocities.....	3-4
3-4	Pump Parameters.....	3-5
3-5	Pump Station Capacities	3-5
3-6	Pump Discharge Velocities.....	3-7
3-7	Force main Wastewater Velocities	3-12
3-8	Summary of System Problems	3-16
4-1	Influent Sewer Replacement	4-3
4-2	Influent Sewer Detention Time.....	4-3
4-3	Force Main Replacement Alternatives.....	4-7
4-4	Initial Improvements – Capital Costs	4-10
4-5	Wetwell and Suction Improvements – Capital Costs	4-10
